INTEGRATED WELLNESS SOLUTIONS

CLIENT WAIVER

The information being sought is of a nutritional value and NOT a medical diagnosis, prescription, treatment, disease prevention or health assessment. I understand: According to the Federal Food, Drug, and Cosmetic Act, as amended, Section 201 (g)(1), the term “drug” is defined to mean: Articles intended for the use in the DIAGNOSIS, CURE, MITIGATION, TREATMENT, or PREVENTION of disease. In other words, to “say” that a vitamin, mineral, herb, trade element or amino acid will have any effect on disease or symptoms thereof, that particular nutrient then becomes a DRUG under the law written. Therefore, any suggested nutrition or supplementation is not intended as the primary therapy for any disease or symptom, but is provided solely to upgrade the quality of food delivered through the diet. WARNING: You may wish to consult your physician before beginning a diet or making changes in your diet, nutritional supplementation or exercise program, especially if you have a medical condition, are taking any medication, or are pregnant/nursing. If you are currently taking prescriptive medication, you must discuss any change with your physician before discontinuing or altering your dosage.

I understand and agree to the above statements and I also agree that the information I’ve provided is true and accurate.
